Personal Statement

A dedicated software developer aimed at solving real life problems. My primary focus and aspiration for my studies is web development which I'm passionate about and strive to better myself as a developer and the development community as a whole. I specialize in PHP and laravel framework and Vue js. My driving force is the willingness to ensure that objectives are met. I have proficiency in Statistics and the entirety of the computer science suit. I believe I have good background knowledge and skill set of mathematics and computer science (statistics option) from my study.
